

Mini Challenge

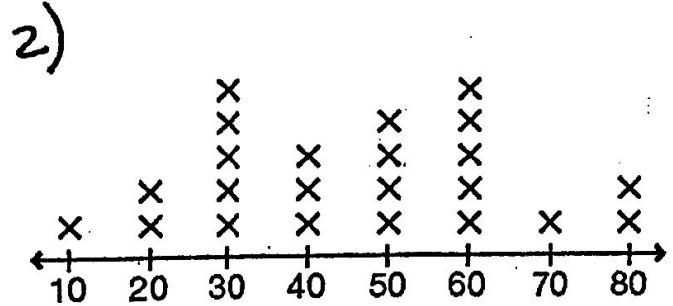

Central Tendency

Name _____

Find the mean, median, and mode for each set of data. Show your equation with the mean.

mean = _____
 median = _____ mode = _____

mean = _____
 median = _____
 mode = _____

3)

Amount	Tally	Frequency
80		4
85		6
90		5
95		3
100		1

mean = _____
 median = _____ mode = _____

4)

Temperature	Tally	Frequency
60°		10
62°		12
64°		9
66°		5
68°		12

mean = _____
 median = _____ mode = _____

II. Given the following set of data, which will change the most if 150 is taken out of the data set?

Mean or median.....prove your answer

15, 45, 30, 150, 40, 20, 25
